Education

Johns Hopkins University

B.S. IN COMPUTER SCIENCE, MINOR IN ROBOTICS

Maryland, MD, USA

Aug.2026 - Jan.2029

Research Interests

Core Research Interests: My research primarily explores the intersection of **embodied AI** and **multi-robot systems**, focusing on **vision-language-action systems** and **large-scale machine learning**. I am also passionate about **bio-hybrid robotics** and **biomimetic robotics**.

Core Research Question: How to create a bio-inspired robotic system whose **perception, decision-making, whole-body control** reach the level of **living organisms**, enabling it to flexibly cope with **dynamic environments** such as clinical and agricultural settings?

Honors and Awards (Selected)

2026 **Spring 2026 Dean's list**, UMN

Minneapolis, MN, USA

2025 **Fall 2025 Dean's list**, UMN

Minneapolis, MN, USA

2025 **Spring 2025 Dean's list**, UMN

Minneapolis, MN, USA

2024 **Fall 2024 Dean's list**, UMN

Minneapolis, MN, USA

2024 **Utility Model Patent Certificate**,

China

Project Portfolio

Ergonomic Infant Carrier Structural Design

China

LEAD DESIGNER AND INVENTOR

2024

- Patent No. ZL202420025612.5, [\[link\]](#)
- Designed a novel force-distribution structure to reduce spinal pressure for users by **15%** based on biomechanical modeling.
- Successfully filed and obtained a **Chinese Utility Model Patent** for the innovative structural improvement.

Skills

Programming Python, C++, $\LaTeX$, JAVA, MATLAB, R, Mathematica

Outreach Experience

Cedar Riverside Adult Education Collaborative Volunteering

Minneapolis, MN, USA

TUTOR

May.2025 - June.2025

- Taught English to level 1 adult learners

ABC Kids Expo, [\[link\]](#)

Las Vegas, NV, USA

SALE, TRANSLATOR(ENGLISH, CANTONESE, MANDARIN)

May.21-23 2025

- Discussed with well-known stroller brands, such as Familidoo, and provided parenting solutions suitable for families with multiple children
- Pitched platform onboarding strategies for Amazon, Target, and Walmart
